ABOUT THE ROLE

Within the Brisbane market, Place Design Group has developed a reputation for delivering both strategic and commercially focused projects, diverse in scale, character and unique to site. The role will support projects for both public and private sector clients, include many of the major developers working in Queensland, as well as a broad range of local government and state government departments.

Urban Designer – Strategic Planning, Urban Renewal and Public Realm

The urban designer will be responsible for preparation of a wide variety of design documentation for city/town centres, urban renewal projects, mixed use precincts and public realm strategies. A demonstrated ability to creatively communicate ideas and design principles with a strong attention to detail is required.

You will:

- Collaborate with our team to prepare project visions/positioning, site analyses, context assessments, master plans, urban framework/precinct plans, yield analyses and design guidelines
- Prepare illustrative documentation of design concepts using free hand and graphic programs such as Adobe Creative Suite, Rhino, AutoCAD and Sketchup
- Assist with the preparation of high quality reports using Adobe InDesign
- Attend client meetings and workshops and liaise technical consultants
- Assist in the preparation of tenders, proposals and submissions,
- Assist with project budgets and invoicing

Essential Experience:

- Tertiary qualification in planning, architecture, landscape architecture or urban design
- Min. 7 years demonstrated experience in urban design projects
- Demonstrated graphic communication skills with high levels of proficiency in the Adobe Creative Suite. Knowledge of AutoCAD and 3D programs such as Rhino or Sketchup will be advantageous.
- High level written and verbal communication skills
- Attention to detail and delivery of quality documents and communication
- The ability to work autonomously and within a team

- Good organisational and time management skills
- Australian Residents only

Urban Designer – Master planning and residential subdivision design

The urban designer will be responsible for preparation of a wide variety of design and technical documentation for mixed use precincts, master planned communities, greenfield subdivisions, commercial and industrial precincts. A demonstrated ability to creatively communicate ideas and design principles with a strong attention to detail is required.

You will:

- Collaborate with our team to prepare a wide range of master planning documentation including site analyses, context assessments, structure plans, master plans, subdivision plans, detailed yield analyses and design guidelines
- Prepare master planning and subdivision documentation in support of development applications.
- Prepare illustrative documentation of design concepts using free hand and graphic programs
- Assist with the preparation of high quality reports
- Attend client meetings and workshops and liaise technical consultants
- Assist in the preparation of tenders, proposals and submissions,
- Assist with project budgets and invoicing

Essential Experience:

- Tertiary qualification in planning, architecture, landscape architecture or urban design
- Min. 7 years demonstrated experience in urban design or master planning projects
- High levels of proficiency in AutoCAD
- Graphic communication skills with proficiency in the Adobe Creative Suite. Knowledge of 3D programs such as Rhino or Sketchup will be advantageous.
- Competent written and verbal communication skills
- Attention to detail and delivery of quality documents and communication
- The ability to work autonomously and within a team
- Good organisational and time management skills
- Australian Residents only
